

TCPConv

USB/RS-232 Ethernet switch

TCPConv (exemplary illustration)

The main purpose of the TCP converters is to enable RFID authentication and access control for devices that lack a USB port, from older single function printers to industrial robotics. They can be connected on one end to a Local Area Network (LAN) and on the other end to an RFID reader via USB cable. When the user presents a card to the reader, the information is sent over the network to a local server and depending on the response, a print job can be released or, in the example of industrial robotics, operator authorization granted.

Thanks to the TCPConv, you can use the RFID technology in your network without having to change your complete IT infrastructure. Thanks to the USB and RS-232 interfaces on the device, it is also compatible with almost all RFID devices of the ELATEC TWN3 and TWN4 product families.

Special features:

- Easily adds RFID identification capabilities on single function printers and other devices over Ethernet
- Simple installation between ELATEC TWN3 or TWN4 readers and Ethernet-connected printers
- Can act as an Ethernet network switch

TECHNICAL DATA

DIMENSIONS (L X W X H) Approx. 82.00 x 65.00 x 25.00 mm / 3.23 inch x 2.56 inch x 0.98 inch POWER External power supply 5 V CURRENT CONSUMPTION Max. 800 mA, depending on external load TEMPERATURE RANGE Operating: 0 °C up to +70 °C (+32 °F up to +158 °F) Storage: -40 °C up to +85 °C (-40 °F up to +185 °F) RELATIVE HUMIDITY 10% to 90% non-condensing TCP Server: Device is connected by a TCP client. OPERATING MODES (USB) TCP Client: Device connects automatically to a specified TCP server. The connection may be triggered by an incoming flow of data on either the USB or RS-232 port. LAN COMMUNICATION PROTOCOLS TCP, IPV4, DHCP, ARP, PING Type: USB HOST Maximum current: 500 mA Supported devices: ELATEC TWN3 and TWN4 RFID devices Baudrate: Configurable 300, 600, 1200, 2400, 4800, 9600, 19200, 38400, 57600 or

44E000 D I
115200 Baud
RS-232 Databits: 7 or 8 bits
Parity: None, even or odd parity
Stopbits: 1 or 2
MTBF 500,000 hours
WEIGHT Approx. 85 g / 3 oz, without power supply
PERIPHERAL INTERFACES USB, RS-232, 2 LAN ports
TRANSMISSION SPEED LAN: 10 / 100 Mbit/s
Other teatures: Auto MDI/MDIX
CERTIFICATION NAME TCPConv
CERTIFICATIONS Non-exhaustive list ¹⁾ :
CE, FCC, IC, REACH and RoHS-III compliant
TC1K-BT1EU TCPConv kit with 0.5 m patch cable (RJ45) and power supply EU ²⁾
ORDER CODES TC1K-BT1UK TCPConv kit with 0.5 m patch cable (RJ45) and power supply UK ²⁾
TC1K-BT1US TCPConv kit with 0.5 m patch cable (RJ45) and power supply US ²⁾

The product has been certified for use in many countries and regions. Contact your Sales representative for detailed information about all certifications and approvals granted to the product.

²⁾ Please also refer to the power supply data sheets.
